TRANSMITTAL OF REQUEST FOR CERTIFICATE OF CORRECTION

Applicants hereby request that a Certificate of Correction be issued for the above-indicated patent in accordance with the following request to replace FIGs. 1-4 in the patent with the attached FIGs. 1-4.

The above-indicated application, which included FIGs. 1-6, was filed on February 4, 2004. On June 4, 2007, Applicants filed a Response to Office Action, which included several references. It appears that there were 4 pages of unrelated figures that were inadvertently attached to one of the references included with the June 4, 2007 Response. It appears from PAIR that the U.S. Patent and Trademark Office re-coded these 4 pages that were inadvertently included as part of the Response to Office Action as drawings and replaced original FIGs. 1-4 in the application with those 4 unrelated figures. Applicants were not aware of the Patent Office's replacement of original FIGs. 1-4 with the unrelated FIGs. 1-4 until after the above-referenced patent issued. [Applicants note that FIGs. 5 and 6 in the above-referenced patent are correct]. Applicants note that none of the figures were amended or replaced by Applicants at any time

Accordingly, as indicated in the attached document, Applicants respectfully request that the unrelated FIGs. 1-4 in the above-indicated issued patent, which the Patent Office introduced into the application sua sponte, be replaced with the attached FIGs. 1-4, which were originally filed with the application and should have been printed in the issued patent.
